PREFACE.

In this edition the calculations have been carefully revised and those for a year reckoned at 365 days extended to 15 per cent

To facilitate reference, the Tables have been re-arranged and the period printed in the corner of each page.

The first part of this work is especially designed for the use of merchants and counting-houses, the interest calculations being made for a year reckoned at 365 days.

The second part will be found useful to holders of Bonds and Government Securities, the interest on sums being calculated for a year reckoned at 12 months and 30 days to the month.

To render the work still more useful to the public, a set of Commission, Discount, and Brokerage Tables are added to the present edition.

As great care has been bestowed in the preparation of the work, it is hoped that it will be found accurate and useful
